

Pipeline Engineer

**Sun-Canadian Pipe Line Company Ltd.
Waterdown, ON**

**Posting Date: June 10, 2022
Closing Date: July 10, 2022**

Sun-Canadian Pipe Line is a safety-minded team transporting refined petroleum products through Southern Ontario. We are looking for an experienced Pipeline Engineer to provide engineering guidance and support in the areas of pipeline safety and integrity, risk assessment, and project/program management. You will also be responsible for engineering support for the pipeline operation, collaborating with regulators and industry peers, and mentoring engineering staff.

ACCOUNTABILITIES

- Providing engineering guidance for pipeline integrity issues, crossing assessments, and facility modifications
- Leading multi-disciplinary projects from inception through commissioning, including scope definition, management of budget and schedule, and contractor selection
- Performing technical reviews and evaluations of engineering drawings, reports, proposals, and equipment designs/specifications
- Leading technical risk assessments and process hazard (HAZOP) analyses
- Conducting assessments and providing recommendations to ensure the Company's facilities are operating in compliance with applicable regulations and codes
- Reviewing and providing independent studies, analyses, interpretations and conclusions related to assigned projects
- Providing technical engineering support for operations and maintenance issues, alterations and improvements
- Identifying opportunities to reduce risk and/or costs to enhance pipeline system reliability, safety and environmental performance
- Providing engineering mentoring/guidance within organization

QUALIFICATIONS

- Licensed Professional Engineering registration or eligibility to register in the Province of Ontario
- Minimum 5-10 years of direct experience with technical or process functions in a pipeline or oil & gas operation
- Direct experience with risk assessment processes and practices
- Solid analytical and problem-solving skills
- Ability to embrace and lead change

- Demonstrated technical leadership skills
- Effective English oral and written communication skills
- Demonstrated implementation of project management principles and practices
- Experience with pipeline geohazard management and remediation
- Working knowledge of applicable CSA Standards, CER/TSSA pipeline regulations, GIS and Incident Command System is an asset

In addition to rewarding job opportunities, we offer an attractive employee package, including:

- Competitive base salary, compensation programs, and an annual incentive program
- Flexible benefits package
- Rewarding pension and savings plans

Where you'll be working, your work schedule, and other important information:

- Based in Waterdown, ON, small office environment, currently remote work from home due to COVID-19
- Regular 40 hour work week, Monday to Friday
- Occasional travel required along the pipeline route (right-of-way; pump stations and terminals)
- Provide 24-7 emergency response support

To apply, please forward resume and cover letter to: info@sun-canadian.com

Or visit <http://sun-canadian.com/careers/>

We are an equal opportunity employer and encourage applications from all qualified individuals. We are committed to providing a diverse and inclusive work environment where every employee feels valued and respected. We will consider accessibility accommodations to applicants upon request.

NOTE: Technology will be used to conduct virtual interviews in order that we adhere to physical distancing recommendations. We are also set up for remote orientation and onboarding.

We thank you for your interest in Sun-Canadian Pipe Line. Due to the volume of applications received, only those selected for interviews will be contacted.
